- + Timeless design

Minpunten

- Takes up space

This chair is too good to be true!

Every child wants to be a prince or princess and have this beautiful chair!

The peacock chair was already an iconic design in the 1960s, with the beautiful fan-shaped back of the chair, reminiscent of a peacock's tail.

It is made of a sturdy wooden frame and further wrapped with rattan.

Yet the chair is lightweight and therefore easy to move.

It fits perfectly in a boho room where it will be a real eye-catcher!
